

Dary Ramadhan Fajar

daryramadhan.com | [LinkedIn](#) | [Dribbble](#) | daryramadhan23@gmail.com | Jakarta, Indonesia

I'm a Product Designer with 2+ years experience focused on designing with empathy and helping teams turn complex ideas into impactful digital products. I bring a strong sense of ownership, clear communication, and a collaborative approach to every project. Currently leveraging AI to sharpen my creative process and deliver more impactful work, faster.

EXPERIENCE

PT. Pupuk Indonesia

Indonesia (Remote)

UI/UX Designer (Freelance)

Apr 2026 - present

- Designed Sentra's landing page as a centralized entry point for employees across Pupuk Indonesia's subsidiaries to access internal corporate services.
- Redesigned the existing Document of Files platform within Sentra's design system, improving complex role-based workflows for drafters, reviewers, approvers, and recipients.
- Collaborated closely with Pupuk Indonesia's internal product and development teams to align operational requirements, design decisions, and implementation constraints.

TRD Creative Studio

Indonesia (Remote)

Co-Founder & Product Designer

Jan 2024 - present

- Co-founded a creative design studio focused on UI/UX, product strategy, and digital experience design for startups and small businesses.
- Designed and delivered 20+ digital product concepts and client projects, including websites, mobile apps, and design systems.
- Worked directly with founders and stakeholders to define product direction, user flows, and interaction design.

PT. Synapsis Sinergi Digital (Synapsis)

Jakarta

- UI/UX Designer Lead

Apr 2025 - May 2026

- Given the trust from the company to step into a UI/UX Lead role early in my career journey.
- Focused on improving team workflows through design playbooks, better documentation, weekly learning sessions, and fostering a high-agency design culture. Also helped introduce AI-enabled workflows for designers.

- UI/UX Designer

Apr 2025 - Feb 2026

- Responsible for end-to-end product design within the mining sector, starting from UX research, client collaboration, wireframing, prototyping, to delivering high-fidelity UI and work closely with PM, BSA, QA Engineers, and Developers
- Key Projects: PT Madhani Talatah Nusantara (e-Recruitment Platform, Learning Management System (LMS), Employee Self Service (ESS), AI Hub Platform, Design System), Surveillance Dashboard System

- UI/UX Designer Internship

Dec 2024 - Apr 2025

- Key Projects: Synapsis Website 2.0 (<https://synapsis.id>), Nearon Dashboard

Resumify

UK, London (Remote)

Product Designer

Apr 2025 - Sep 2025

- Leading the end-to-end product design for Resumify, a resume optimization tool powered by AI, from ideation to pre-launch
- Established the brand's visual identity from scratch, including logo, typography, and UI components
- Collaborating closely with the founder and engineers to align product vision with technical feasibility and UX best practices

CCIT-CEP FT Universitas Indonesia

Depok, West Java (on-site)

UI/UX Design Lecturer (Contract)

Feb 2025 - Jun 2025

- Leading the end-to-end product design for Resumify, a resume optimization tool powered by AI, from ideation to pre-launch
- Established the brand's visual identity from scratch, including logo, typography, and UI components
- Collaborating closely with the founder and engineers to align product vision with technical feasibility and UX best practices
